

Lucerne

SF 914QL

Lucerne

SF 914QL is a highly winter active type developed for growers looking for maximum production from their lucerne operation in suitable environments. It's soft stem helps ensure maximum quality and utilisation and can be incorporated into grazing or harvesting systems.

Agronomic features:

- > Improved persistence
- > Winter activity rating of 9
- > High production and quality
- > Suitable for grazing and/or cutting systems
- > Good pest and disease tolerance
